

LeadingEdge's Mobile Device Management (MDM), solution, is the fastest and most comprehensive way to configure devices for enterprise access and secure corporate data on smartphones and tablets — **all from a single screen.**

As a fully integrated cloud platform, **LeadingMDM** simplifies MDM with rapid deployment, visibility and control that spans across mobile devices, applications and documents.

Deployment is quick. In just a few clicks, IT administrators can start enrolling devices and immediately manage the entire mobile device lifecycle — from enrollment to enterprise integration, configuration and management, monitoring and security, support, and analytics and reporting.

Meeting Your MDM Challenges

- ✓ Increase security & compliance enforcement
- ✓ Reduce the cost of supporting mobile assets
- ✓ Enhance application & performance management
- ✓ Ensure better business continuity
- ✓ Increase productivity & employee satisfaction

Why LeadingMDM?

- ✓ Proven approach to cloud-based mobility management
- ✓ Powerful management & security to address the full mobility lifecycle
- ✓ Seamlessly integrates with all of your existing infrastructure
- ✓ Simple & fast with an exceptional customer experience

Instant Mobile Device Management

LeadingMDM is an easy-to-use cloud platform with all of the essential functionality for end-to-end management of today's mobile devices including iPhones, iPads, Androids, Kindle Fire devices, Windows Phones and BlackBerry smartphones.

MDM Essentials

- ✓ SMS, email or URL over-the-air (OTA) enrolment
- ✓ Passcode & encryption enforcement
- ✓ Email, VPN & Wi-Fi profiles
- ✓ Device restriction settings
- ✓ Remote locate, lock & wipe (full & selective)
- ✓ Jailbreak & root detection
- ✓ Policy updates & changes
- ✓ Compliance reporting

Complete Mobility Management

- ✓ Email access controls
- ✓ Corporate directory integration
- ✓ Certificate management
- ✓ BYOD privacy settings
- ✓ Event-based rules engine
- ✓ App management & distribution
- ✓ Secure document sharing
- ✓ Mobile expense management

Windows phone

Rapidly Enroll Mobile Devices

LeadingMDM mobile device management streamlines the platform set up and device enrollment process to make life simple for IT and employees.

- ✓ Select MDM services and configure device enrollment settings
- ✓ Send enrollment requests over-the-air (OTA) using SMS, email, or a custom URL
- ✓ Authenticate against Active Directory/LDAP, using a one-time passcode, or with SAML
- ✓ Create and distribute customized acceptable-use policies and EULAs
- ✓ Register corporate and employee owned (BYOD) devices
- ✓ Initiate individual or bulk device enrollments
- ✓ Apply or modify default device policy settings

Integrate Mobile Devices with Your Organisation

Through the Cloud Extender, integration with your organization is easy and straightforward, without the need for on-premises servers or network reconfigurations.

- ✓ Mobile asset information available directly into your PSA
- ✓ Instant discovery of devices accessing company systems
- ✓ Integrate with Microsoft Exchange, Lotus Notes, and Microsoft Office 365
- ✓ Leverage existing Active Directory/LDAP and Certificate Authorities
- ✓ Manage BlackBerry Enterprise Server (BES) policies
- ✓ Connect with other operational systems through robust web APIs

Centrally Manage Mobile Devices

LeadingMDM provides a unified mobile device management console for smartphones and tablets with centralized policy and control across multiple platforms.

- ✓ Configure email, calendar, contacts, Wi-Fi and VPN profiles over-the-air (OTA)
- ✓ Approve or quarantine new mobile devices on the network
- ✓ Create custom groups for granular management
- ✓ Distribute and manage public and corporate applications
- ✓ Securely share and update documents and content
- ✓ Define role-based administrative portal access rights within LeadingMDM
- ✓ Decommission devices by removing corporate data and MDM control

Proactively Secure Mobile Devices

LeadingMDM provides dynamic, end-to-end security and compliance management capabilities to continuously monitor devices and take action.

- ✓ Require passcode policies with configurable quality, length, and duration
- ✓ Enforce encryption and password visibility settings
- ✓ Set device restrictions on features, applications, iCloud, and content ratings
- ✓ Detect and restrict jail-broken and rooted devices
- ✓ Remotely locate, lock and wipe lost or stolen devices
Selectively wipe corporate data leaving personal data intact
- ✓ Implement real-time compliance rules with automated actions
- ✓ Enable geo-fencing rules to enforce location-based compliance

Streamline Mobile Device Management Support

LeadingMDM delivers the ability to diagnose and resolve device, user or application issues in real-time from a web-based portal; offering complete IT visibility and control, and ensuring optimum mobile user productivity.

- ✓ Access device views to diagnose and resolve issues
- ✓ Locate lost or stolen devices
- ✓ Reset forgotten passcodes
- ✓ Send messages to devices
- ✓ Update configuration settings in real time
- ✓ help users help themselves with a self-service portal

Monitor and Report on Mobile Devices

Mobility Intelligence™ (MI) dashboards deliver an interactive, graphical summary of your mobile device management operations and compliance allowing IT to report in real-time across the entire enterprise.

- ✓ Monthly executive reports include important mobile device information
- ✓ Detailed hardware and software inventory reports
- ✓ Configuration and vulnerability details
- ✓ Integrated smart search capabilities across any attribute
- ✓ Customizable watch lists to track and receive alerts
- ✓ BYOD privacy settings block collection of personally identifiable information
- ✓ Mobile expense management for real-time data usage monitoring and alerting
